The Arthur Svensson Prize of 2019 to France Castro

It is a great pleasure to congratulate you for being being awarded the Arthur Svensson Prize 2019.

LO-Norway is well aware of the important role that you and Alliance of Concerned Teachers (ACT) have played in organizing teachers and fighting for the trade union rights in the Philippines. We are also cognizant of your persistent work in promoting democratic rights and fight against neoliberal changes in the education sector.

The prize is an appreciation of the importance of fighting for democracy and trade union rights and as such underlines the importance of the trade unions as a driving force in the civil society.

Wishing you all the best, we remain

Yours sincerely

THE NORWEGIAN CONFEDERATION OF TRADE UNIONS
